ONCE THE HURRICANE'S OVER, WHO HELPS THE GOVERNMENT WEATHER THE STORM?

The last thing the victims of a disaster should have to deal with is a relentless storm of paperwork. So, as part of an effort to serve disaster victims more quickly, the Federal Emergency Management Agency turned to Compaq. Our 8-way servers helped FEMA triple the number of transactions they handle through their NEMIS system. And cut claims-processing time from two weeks to 48 hours. Saving the government — and taxpayers — serious money. To learn how Compaq can help your agency survive its next emergency, call 1-800-729-9780, visit www.compaq.com/federal or see your reseller.
